PRODUCT DESCRIPTION

The T100E from GBC is a fully automatic thermal adhesive binding machine that binds documents in seconds. Simply place the document in its therma bind cover, place it into the opening and a single touch of the Bind button activates the binder. The heating element heats the adhesive that is built into the Therma Bind cover to secure the document into the cover. Visual and audio indicators included on the T100E let you know when the job is complete. Its built in cooling rack allows the user to complete the binding process with ease. Produces up to 75 books per hour. Binds documents up to 250 sheets 1 thick .
