PRODUCT DESCRIPTION

ETitanWire Heavy Duty 3 1 Wire Electric Punching and Binding Machine Made of sturdy die casted metal rather than flexible sheet metal, the ETitanWire is the most heavy duty, reliable, user friendly, and functional machine in its class. The ETitanWire uses die casted metal for the base and sides of the housing unit rather than using sheet metal for the punching surface to ensure your machine is solid in all the important places. The ETitanWire uses an encased lubrication system that drastically reduces friction and punch pin wear, which equates to longer machine life for the end user. By encasing the lubrication, you are guaranteed to never have lubrication spots on your punched pages. Utilizing the world's first full disengagement pin design recently copied by other manufacturers, punched paper is free from partial punches, on any size project. The disengagement pin design uses independent coil spring mechanisms on each pull pin that allows the pins to disengage with a crisp snapping action. All ETitanWire punch pins are heat treated and precision ground to tight tolerance. The ETitanWire punches holes at 3 1 pitch. For 2 1 pitch, see the ETitanWire L ETitanWire has the best wire closer design on the market. It features two tapered steel closing blocks with CloseAssist finish, made in a precision controlled environment. This design assures long lasting wire closing quality, especially compared to competing machines sandpaper or fabric covered sheet metal closer. Two adjustment knobs are standard, to assure even and accurate closing. This is VITAL to consistent closure of elements, no matter whose wire you use. With our specially designed Hi Torq punch motor, torture tested for 3,000,000 cycles, the ETitanWire takes coil binding to the next level of convenience and ease. The ETitanWire can punch 28 sheets of 20 lb paper

with the gentle push on a foot pedal, eliminating the manual punching strain on staff members

FEATURES SPECIFICATIONS Heavy Duty Electric Punch 28 sheets of paper 20 lbs Full Disengagement Pins ensures a completely clean professional punch without partial punches on any length of paper Anti Jam Function Automatically prevent jams before they happen Side Margin Control center holes quickly and easily Wire Size Selector Built in spring loaded indicator shows suggested wire size Adjustable Punch Margin improve all books strength and design Open Throat Design with EasyPunch Easily punch any size book Extra Large Waste Drawer Binding Format Wire Punching Method Electric Binding Method Manual Punching Format Horizontal Punch and Binding Capability Yes Max Wire Punch Capacity 28 Sheets Max Wire Bind Capacity 312 Sheets Wire Format 2 1 Disengage able Die Pins Anti Jam Automatic Reverse Function Foot Pedal Operation Waste Compartment Margin Depth Control Warranty 1 Year Weight 50 lbs
