PRODUCT DESCRIPTION

Made of sturdy die casted metal rather than flexible sheet metal, the ETitanCoil is the most heavy duty, reliable, user friendly, and functional machine in its class. Manufactured with die casted metal for the base and sides of the housing unit rather than using sheet metal for the punching surface to ensure your machine is solid in all the important places. The ETitanCoil uses an encased lubrication system that drastically reduces friction and punch pin wear, which equates to longer machine life for the end user. By encasing the lubrication, you are guaranteed to never have lubrication spots on your punched pages. Utilizing the world's first full disengagement pin design recently copied by other manufacturers, punched paper is free from partial punches, on any size project. The disengagement pin design uses independent coil spring mechanisms on each pull pin that allows the pins to disengage with a crisp snapping action. Our 6 inch coil roller is all the rubber you need. Simply start the coil by hand and then touch it to the rubber roller. Your hands unconsciously will move the book as the coil is wound through the paper. 6 inch rollers are the professional standard. With our specially designed Hi Torq punch motor, torture tested for 3,000,000 cycles, the ETitanCoil takes coil binding to the next level of convenience and ease. The ETitanCoil can punch 25 sheets of 20 lb paper with the gentle push on a foot pedal, eliminating the manual punching strain on staff members. A combined 450 years experience led to DFG producing a machine with the most sophisticated design, testing methods, and manufacturing techniques to develop the most rigid heavy duty chassis in its class at 29 less overall machine weight.

PRODUCT SPECIFICATION

DIMENSIONS

Weight:	47.00 lbs.
Width:	15.50 inches
Length:	15.00 inches
Height:	6.75 inches

PRODUCT FEATURES

Adjustable Punch Margin: improve all books' strength and design

Anti Jam Function: Automatically prevent jams before they happen

Coil Size Selector: Built-in spring loaded indicator shows suggested coil size

Electric Power Binding: foot-pedal activated roller significantly increases productivity and greatly reduces operator fatigue

Extra-Large Waste Drawer

Full Disengagement Pins: ensures a completely clean professional punch without partial punches on any length of paper

Heavy Duty Electric Punch: 25 sheets of paper (20 lbs)

Hole Pattern: 4:1 pitch. 5/32 (4 mm) holes

Open Throat Design with EasyPunch: Easily punch any size book

Power Supplier 110 V AC, 60 HZ

Punch Length: Any Length thanks to the fully disengagement pins and open throat design

Side Margin Control: center holes quickly and easily

Warranty One year
