PRODUCT DESCRIPTION

ERC PB 30F Tabletop Perfect Binder For schools, small print shops, and graphics professionals on a more limited budget, the PB 30F is a tabletop book binder that can perfect bind soft cover books. It s semi automatic and has an integral notching system to ensure book strength. The process of perfect binding is simple. Place a stack of paper in the machine. When the paper is secure, the machine will slide the paper across a roller coated with hot glue. The glue is evenly spread across the spine of the paper where it is then cooled by fans. Finally, your cover is wrapped around the spine for a professional finish to your bound documents. Use these machines to produce catalogs, employee hand books, phone books, soft back books, school programs, sports programs, and more. FEATURES 20 minute warm up time. EVA adhesive Spine notching system A realistic production rate of one bind every 30 seconds Heavy duty frame SPECIFICATIONS Product Width 24.25in. Product Height 10.25in. Product Length 23.25in.
